Act 2

Ascet

I am a humble man at most

rely on my wit at worst

where is myth; I am Your host

I am of Character

I am a caretaker

but if You need cheap magic tricks

please do do look else- where

it is not simple it is hard

I put it like this I am from the creation of me and of it all

and I believe I wanted peace overall

yes I admit since a christian at last

I do talk about my past

I will tell you the story here

and take you to the essence of how things began

the breath that you breath

the blood flowing in Your veins

but I do indeed allow myself to rule out some stories here

perhaps if I ever write a book myself

here it goes

I am the only man alive who can call myself

…GOD

hold on hold on

it’s more complicated than that

I understand that you do not possess
the knowledge of the back story here

An old man with long blond beard sits and studies texts

this man’s name is Zarathustra

he is simple

saying that, he is wise

a commoner, mundane in living
and as all people were where he came from

he was generous and courteous

they spoke their minds and other people sometimes
said of them
they had bad tempers, but nonetheless kind
deep inside

of course here must be added
no one had ever seen any of them upset or even raising a voice

this man had a dilemma

to write this book he had I mind or just not

that’s where I come into the picture

you see I’ve had severe pain and majestic suffering for the lack of a better word

but he doesn’t even know what pain is

let’s talk to him

I go in as the publisher that magically appears

ascet

knock knock

hello

Zarathustra

Ohoy there sailor, come on in, come in

take a seat,

wow what a nice surprise

tell me

do you like Your sugar with some Tea

Pause

ascet

yes I would like the tea and ad to it sugar

To the audience

what did I just say

Zarathustra

oh, easy misunderstanding

I asked you if you wanted some tea with your sugar

what I meant to say was the opposite

of course it's not as opposite as You might think

then you'd have the tea in you tea spoon and
well what would you do with the cup then

hahaha. Hahaha

haaaa ahahahahahaa

so tea with your….ahhh….i mean sugar or without sugar

to your tea

ascent

To the audience

I really don't want to break his heart
see I ve been here before

in rehearsal

I really don't think I should improvise here

To Zarathustra

yes please sugar… or no

just the Tea thank You

Zarathustra

oh a man of the natural taste

so my friend how's life

ascent

well, it's great, it's wonderful in fact

I'm still broken hearted and am getting married soon

Zarathustra

oh you'll be just fine

it's just people

everybody needs everybody In the end

but this broken heart of yours

and you know this lady

you think she'll be able to fix it for you

did you tell her you loved her

how much more she is to you

than any other lady

ascet

well I came on a different errand

I have a printing and I heard you were a writer

Zarathustra

oh yes

well I haven't started to write it yet

I'm thinking

this book is sort of that , well we all are writing this book

and I have a dilemma

because we are famous for our writing

and this talks about the holy concept

the adversary which is the man version
and then I discovered what the others, I believe have not

the Man God which we decided to call 'AhuraMan'
short became 'Ahriman' for the misunderstanding

this man God is the real bad guy
the concept 'Ahura Mazda' which literally means
'Vast Wisdom In Creation'
is really the concept God which we all believe in

so the 'Ahriman' the Man God is seen as the adversary
meaning the problem

people just go nuts thinking they're the holy

ascet

the holy man god .

Zarathustra

no no, just you know

the go crazy thinking they're…

Lowers his voice

..God

so 'Ahriman' is the villain

but I discovered if there is a concept of a benevolent and all knowing

of course with the other attributes
creator and forgiving concept

so 'Ahriman' is the bad guy, message that people become God

but what do I do with this wicked concept

meaning it's been there in front of our eyes all this long

tempter, ah maybe that would be wrong

the concept bad guy who doesn't even exist

You can be tempted by the good side

not calling it that
may be compelling

ascet

At the audience

he has no idea what's been going on beyond time

To Zarathustra

well so you all are writing this book the 20.000 small Towners of you

and it's for personal and a game I guess of which becomes the most favourite

Zarathustra

no no

it’s is a inspiration for you to write your own

where you might call your Ahriman tempter there beyond time

Glances at the audience

ascet

no no I would never

Zarathustra

I have an idea

I write this since I have discovered myself

I would be special

and such unique and idolised

ascet

your getting epiphany now

o get that sometimes

oh that’s once in a life time

Zarathustra

oh yes you’re joking time and space man

but sure I’ll let you read it

you can print it

I believe we write about spirituality

but this , this is about the book itself

because of the adversary the concept

the other concept

see, people are easily tempted to be better

ascent

not worse?

I always say one should not be better

Plays with his tea cup

you know You are creating, writing this book

like the holy

Zarathustra

it’s a Sufi book

ascent

So you do the creating part

and I’ll be the judge

we’ll see if we can fit you in somewhere

be sure to write this Your own version

You’ll stand out among the others

Zarathustra

yeah , I'll let you print it

ascet

Drinks up his tea and gets up

well just tell me when your done and I'll come by to pick it up

Zarathustra

oh a couple of months at least

some things must be corrected

if I miss something

it's for the good of the people

must be goodwill

I'll write it as if I was raising a child

bless You senior

see You around

ascet

good bye

Back to the audience

Zarathustra is writing in the back ground corner

well, I don't know what tempts You out there

maybe to see inside someone's life

however personal

like he who wrote this what I am

our friend Zarathustra is

…is tempted…

.. to Create

I always say, that is for God alone

like a sculpture

a painter

or a musician

such is tempter that I wonder

if they are the weaker of us

so here it goes

a man and his pen, his tool to be God

now don’t get me wrong

I am simply an actor
when I say, and that with effect

I am God

he gets terrified

did he write that

so One

two

this here that you see is Looong ago

something else happened

On the other side in the back ground

A man and his bottle

Drinking and telling some workers to build a wall

A boss of some sort

boss

put the bricks tightly on top of eachother

put some clay

the mud

and you

make sure you get the paint from the store

The workers give him a look

worker 1

you leave this to us

thank you for your guidance

worker 2

I’m sure there are papers for you to sign

and meetings and hand shakes to do

worker 3

boss

I’m hungry

can I take a break

Haven’t eaten all day

boss

now you finish the job

oh yeah, well, you can take five,

but not more

ascent

To the audience

the boss

yeah the beginning of …

..Yours truly

let’s talk to him

hello boss

how’s it hanging

boss

I don’t know

these people

some one’s gotta tell them how to do things

by god I say, they don’t know what they’re doing

as if they’ve never done this before

they know

if I wasn’t here

not even this half brick wall would’ve been made

ahh

Offers some drink

you want some

I’ve got this guy who has a brewery

I don’t know

ascent

he makes it then

boss

oh Jesus

I don’t know

I just like it

hey, he’s not home tonight

you wanna come along steal some bottles from him

Ascent takes a sip

I mean, who is he anyway

making stuff

ascent

Naa, I really wish I could pal

but I’m working

educating people

boss

oh you’re a minister of some sort

you answer to someone

you got a boss

ascent

No, not that I know of

not really

just God

boss

oh that’s a good one

God

which one

I’d give my left arm to see those mythologies

where they live

those mountains among the clouds

gee wee

I'll give my left arm o tell you

hey, you don't forget a guy when you get there

yeah

god

ascent

I'll be right back

you say you give your left arm

boss

it's not like I'd use it

you take me to the mythology

you can get my left arm

ascent

yeah

one moment

He goes across the stage and gets his cane

boss

To the workers

don’t do it like that

do it differently

if I could I’d do itmyself

and you you’ve been on a break for how long now

get back to work

Ascent is back with his cane

ascent

To the audience

now as I said I’m a Christian now

so I do have a boss

not just any boss

ahhh, anyway

but I say

this guy

nobody tells him what to do

and as far as he goes

I’m still numero uno

so I tell you

no one write this

to prove to you that it’s not God

To boss

now about that arm

left arm was it

boss

you gotta be kidding me

IM In , IM IN

ascent

now come with me

Exit boss, ascent

The workers take a pause

Zarathustra gets up holding his book

Zarathustra

now this be good

I know it’s write differently

so let’s see

I am Zarathus

the son of mine own lineage

I am the first to marry

my wife becomes child some times

Enter Mystic

oh there she is my wife

mystic

I'm quite you son

moms out shopping

Zarathustra

oh

Mystic kisses him on the cheek

mystic

you still writing that thing

Zarathustra

oh this

yes , I guess I am

it's different than the others books

they're all totally unaware of the concept tempter

mystic

eehhh, just concept ?

Zarathustra

yes just concept

of course the other guy exists

who wants to be ,,, you know

Lord over the people

don’t let that tempt you either

mystic

but what if I wanted to be like you

a writer

I wouldn’t be a great one if I just thought I would be like you

would it

I must have passion

so

Zarathustra

oh no no

that’s not tempting

that’s compelling

like that book I read on a painter

got me into painting in the first place

I just can’t seem to be able to do it that well

I don’t know

I guess I just do this here

mystic

so, compelling huh

I’m going to bed

Exit

Zarathustra sits and writes

worker 2

hey, you wanna play some cards

worker 1

na, the boss will get angry

we best not

worker 3

really, because of him

I’m a good worker

yeah he gets in trouble if we don’t do the job

but ahh, it’s shit

worker 2

yeah I'll play cards

Worker 3 goes back to work

And the other two play cards

Enter Mitra

Zarathustra

oh son

you haven't gone to bed yet

mitra

no it's me

your wife

Zarathustra

oh, I see

hi love

Kisses her hand

our son went to bed

I'm gonna sit and work on this

mitra

what is it

what are you writing

Zarathustra

oh nothing

well, something

it’s gonna be a great book

about a devil

well, the concept

mitra

oh that’s bad news

you sure you want to be the one delivering it

Zarathustra

oh I do it

let it be my sacrifice

I see it clear

we were talking mystic and me

about temptation

I saw this in a dream

how people would be tempted towards being the tempter

and the other half towards goodness

there I got stuck

because what exists here

is not that people want to go towards god

it’s quite the Man God that exists

and the holy concept is not a Man

so here we have the tempter the dark concept

who is also not a man

so we’ve got two negative and one positive

it doesn’t make sence

it’s like it’s supposed to give that illusion

like the test of life some how

or maybe in the end

when we all believe darkness has won

Enter ascent, boss
In the centre , out side of either partiys reality

Boss has one arm left

The right one
His shirt is bloody

And he’s mowning out of pain

And ascent is holding the left arm

ascent

shut up now

come along

In the centre background the extra curtain opens and a blacksmith appears

He’s working on a sword

here is the blacksmith

he’s working

he is making something

you would realise

To the blacksmith

hello there blacksmith

what you making

hihihi

a sword is it

No reply

need a helping hand

we heard a sacrifice nessessary

here you go

Leaves the hand on the table

And the black smith is hammering

To boss

you see boss

you give a helping hand

but you’re not really making anything with him now are you

Boss spits at the blacksmith

boss

play god you weak man

you are weak among us

you just make your shit

and get the glory

ascent

no don’t misunderstand

all the mount holy the mount of myth it self

every name is from him

he has half

every story is from him

where were going

he owns half of every single legacy

he’s a great man

he makes it

so do apologise

boss

but he doesn’t get to be that

and it’s not enjoying is it

like your blood all over it

it’s not honor

ascent

well he thinks so

isn’t it true blacksmith

you make the honors

and they live your dreams

Blacksmith stops hammering

make something out of his name

boss

my name is boss

make something

here’s my sacrifice

I gave my arm

but I won’t help

blacksmith

yes, let it so be

that you are boss

a man like any other

confess your sins

and you shall be forgiven

give up your speciality

all doors shall be open for you

however much unique

people gather around halo - wise in time to be like minded

and make a extra speacial people for you to be part of

if you are that special

or

maybe you’re apart of such a gathering

for someone else

also this puts you in a doubt

so doesn’t. Matter if you are the one or not

You can come back to the mundane and live a simple life

all doors shall be open for you

and in time and in space if you began something

be sure

that special in Time and space

you are in an insignificant place

there is one out there

who the original beginning takes

bow down

you are not

Boss spits again

boss

I am boss

and I am better than you

this your land and you deny ownership

so I go and it's not trespass

ascent

no, it's not trespass

or do you claim it blacksmith

blacksmith

so, you confessed

you're a better man

it is a sin

and you did confess

now express

ascent

say what

what do you mean

blacksmith

express yourself

do a manifest

boss

ok

I’m shit

you’re God

beyond

I’m dirt

Starts crying

ascent

see what you have done

blacksmith

so, you are forgiven

rise

you may step unto the land

just call me by your name

I am boss

and your name shall be as great as He who was ‘MAN’ before you

ascent

tell me blacksmith

how many people live on these mounts which

live by your great ness

who accept

blacksmiths

well you choose

the answer to this

or entry

one of you has to return

but if it is such that boss returns home

my promise is my promise

my name is boss

we share this

I shall not forget a new friend

Boss spits again

no matter

you'll see better days

ascent

To boss

I don't need to know if you don't

we don't mind

boss

well, now that you mentioned it

I really got curious

I heard the blacksmith makes ‘em

blacksmith

yes I make the weapons

but it’s up to you what you do with it

ascent

we don’t need to know

blacksmith

fine

ascent

well that’s final

boss

I’m really getting itchy

how many

tell us

say man

12

20

50

blacksmith

no

not 20, that’s a long time ago

boss

tell me then

I gave my arm man

blacksmith

I didn’t ask for it

ascent

come on

I’ll take you to the mythology

forget about him

boss

no I want to know

I’ll give my other arm

blacksmith

no , that not happening

either one of you leaves

or you don’t find out

boss

fine

Spits

I’ll return

blacksmith

three hundred thousand

the last was ‘LOVE’

before her ‘Aphrodite’

and before that ‘MAN’

Boss spits again and takes his cut off hand

And returns sobbing

Blacksmith starts hammering again

And Zarathustra is still writing

And the workers are playing cards

One of them working

Ascent sits down close to the blacksmith and watches him work

ascent

you know

thank you

I go sometimes

up there

you’re something

Lights out

Sound of hammering

Sound out

act 2

Pantheon of gods

On mount Holy

Their names are numbers

seven

it seems like some one is coming

six

a new entry

seven

yes and he is alone

is it a commoner

I really don’t want to see a commoner

five

One knows they are at the highest peak

they come to be undone

one know they live else where

and simply

four

as this is our home

as sure as I am the record of death

I will not stand for this

that insignificant people who don’t even understand

our powers just are up there and ruling over us

tempting us to give up and to be like them

three

well I know

I want to be like them

not simple I not common

but the glorious that it looks like

there is some conspiracy perhaps

that they live on our blood

One

silence

let’s see what the ascent wants

Ascent has walked in zigzag to reach the mount I the back centred on stage

ascent

hello there

gods and angels

two

make no mistake

we are no angels

this is a Parthenon

of sole gods

what is it that you want

ascent

nothing really

I have a man

hie is boss

as man king aspires too become like you

and create

they do it as art

or building a house

we were warn by your predecessors

so we kept out of business

but no we want to claim our position among you

Four

you have been given instructions

you bring the commoners here

to see where they are majestic and glorious

and they will understand how much they have taken

had we live under their conspiracy

you do this and you will have a place

ascent

yes

I understand

but the elder they decide who’s king

and we are many

we don’t create

but this we want from you

to make us kings down there

they have their temptation

seven

what you ask is not possible

our business is to decide the direction we are going and to

protect humanity from evil people

five

the evil should be cast out and we promise who ever is on our side

shall not regret it

and this is output message the common are welcome

ascent

I see, so they will be undone

one

quiet

silence

you insignificant man

we do not want anyone to become undone

you watch your self just

what is it you wish

ascent

well

there is religion happening down there

and people talking and confessing

how do we stop this

because we must protect the elders and originals

and since I am begun a lineage of mine own

I know to secure mine own position

six

yes it is a sin to go against what is you own

it is not securing your own position

you don’t understand

you are weak

we are as much this as if we were born into it

I hold my own universal record

ascent

yes and it is known among ordinary people that the elders are born Ito their powers

and apt

thus they would not do a mistake because they are used to their powers

but now , in this time I which we live

people are talking and speak their minds as if it would be holy

from god or something

they might realise that the elders can become like Sharlatans

that elders you think ‘ Yes , we alway have our position

no one can take it from us, thus…

..we do what ever we want’

isn’t it so

and you of course are different

you have been common

and now part of this fine special group

I just began planting seeds first

and boss

this man that the blacksmith is making for him greatness

he doesn’t know he is first fisherman

which makes the whole photosynthesis possible

he talks too

there’s no way but bringing him here

but he had a choice and he chose to go back

this boss you speak of

you are saying that he didn’t pass Blacksmith

Silence

A moment

he is down there then

among people with his powers of nature

we must make him king

we must put the apple further back in time
That it is the first notion

ascet

aaah, you mean the rip

the love handles

women believe it much

you will make it even sin I believe

to think

or at all to confess

they must not remember to take notice of ther sides

yes

you have the power to put them in limbo

I have learned this and it does come handy

some terrifying news

or terror yes

one

silence

you speak of what you know not

two

fine

you will be king of the isle of serenity

and you do make sure they keep on coming to the mythology

yes, but I wonder sometimes

of the beggars down there

it’s the commons after they’ve been to the mont holy

isn’t it

yes indeed

in their own belief they have sinned

and now begging

it is just

now I must go visit the holy glorious

four

it is not for you

impossible

it is for us they tempt

five

it’s us they want

so you will not be able to see them

but they don’t know of this photosynthesis

and as long as you have the power of Gods to put them in hell

and as long as boss is king

the promise of status qui is running

so go and be sure we do not forget your deeds

damn that blacksmith

The light go cloudy and dark

Lightning and thunder

a storm is gathering

ascent

so as I was saying

this thing religion

you put the apple in the beginning

and the bad news shall it be in it self

of a snake and the rib of the husband as honesty

there is something bothering us

that is common man as the saviour

and insignificant

such insignificant that becomes ultimate in mediation

and gives up all his powers and goes at it again

among people it known as those who sang the real thing

who sand really

three

sang really

what is this then

one

symbiosis

they say to give back what you've been taking in

that it's creation you are

and that man is perfect

but the word is manifesting

and affirmative action

after long time of confession or mediation they reach symbiosis

that is that mundane mythology they talk about

two

we will lose all our credibility as their leader

ascent

might you not take offence

but this mount holy

well, it’s not as attractive as it once was

and you don’t seem that powerful as you once did

so I and the likes of me

we wonder

do you still possess such much power as to give us the kingships forever

so we might have that

and you’ll be worshipped as within their religion

we have all the books

and we know all the tricks

and as long as we don’t give up

they will believe it in the end

that we are a different breed

that we are a different creed

that we are king people

and that our way is to govern

because we , like you and the elders are born into it

as you descendants

one

what

shame you want from us

blood of me for a descendant

I shal show no shame
I shal give no blood

I shall not have a son

ascent

but when people realise, since they're talking

when they realise they don't have to have a son or family
that it is blood and shame

and that it is not only by your genitals

they will want the king ship

so your time is running out

you better make up something good

like such a terror that
even Zarathustra would regret he ever wrote about the concept devil

I am in time was with him

and influenced it through publishing

the only thing I had

and not many of us in that profession

since it’s supposed to be a good person vouching for you

for your credibility

so conspire conspirator

and may you be

For himself

As he is going back

out of our way

Sniff

recorded holders

Lord knows you are one dimensional

even to your selves

Zigzags down

And the back curtain is closing

To the audience

now, the one thing that remains is to grab the first man

or the second

or the third first

of these religious puffs

and suffer him unti he accepts to be king

however holy he shall see himself

to, humble needs

ooh, that’s the effect king , isn’t it

thus

he would be one of us

or all theree first

Lord know, they are gullible

and vain

oh vanity

insanity

an insane king that believes he is a saviour

oh I see it clearly

how he would think he’s holy and king

just to save everything

and service he’ll accept

‘ If you insist ‘, or ‘after you’

and a lady by his side

ooh she’ll crumble

when good goes bad

so the three firsts we'll have had

they're all corrupt already

but the forth kin

that one never plays Ball

and to control him so everything

how about night and day
and Lord knows half dark when you are land

just go to space, imagine that
all is shade and chaos reigns

we shall give him a licence to kill

and the book do the rest

so man is perfect and not flawed

you shall crumble oh you common thieves

our promise that mount holy

and you undid it

it was your conspiracy

it was your revenge

I shall be king For Ever

and we shall see who has the last laugh

Enter boss

boss

oh ascent

long time

looking great

you want a drink perhaps

I've got a box

let's sit at my place

it's sundown and wonderful

you know this gathering

we made this together

the sun and the moon

gosh I wish I'd seen the mythology

Pours him a drink

here kittyCat

salute

They drink

I met someone

a lady

all she thinks is that I want to be like her

I went to another

and she's crying ' it's me you love , it's me you love'

those dirty whores, I tell you

you know what she's really saying

' he wants to be like me, he wants to be like me'

' he's my boy, my protégé'

that little whore just wants to be a leader

they are masters of disguise pal

and don't you for one minute mistake that holy

they go beats and bang your head over there

you thing they don't have balance

oh, I have done things mate

I kill once

I'm giving someone else a million cash

I'm time of course

I'll catch up

I know I know

it's chaos already

you do one bad , you do one good

they insist

insist I tell you

that they don't have to do bad

just easy peasy

yeah, shit don’t stank

I know they do evil else where

impossible

look the sun is almost down

ohh night time

it’s all mix

good , bad, right , wrong

and their bastard manipulation

to make me think half is good

whiteout bad?

are you Joking

see that space

yeah, soon

we’re colonising the moon

all dark

yeah we made this

good or bad

so everybody’s just same

what they Don’t understand

all those murderers

they’re supposed to be alone you mean

na, I just count my blessing

if only they could shut up

this shitty religion and the meditation

manifest my ass

cheers

ascent

yeah cheers

They drink

you’re a great guy

you have a friend up there

tell me

what is the biggest of your desires

I mean where would you want to be right now

more that anything or anywhere

boss

oh, that’s a hard one

anywhere but here

ascent

let’s change that

I know all the guard in town

some police and the rest are business Owners

we begin by you deciding what business does well

and you invest

insider

you don’t get the cash thou

over and over again

you need the peoples vote

and empathy

yeah pal

you

from this day on you are in the lineage of a kings

and I’m your daddy

hhahhaa

how about that

boss

you shut up

I’ll knock you out

ascent

no no

you do t understand

yous ee all these families

in the world

they all serve a purpose

you see family is for kings

and kings only

because you govern the people

so a few govern you

imagine

all these families

I mean it’s ridiculous

they’re someone’s boy for no reason

just flat out fart

and it’s holy to them

you know why

cause the honor of ordinance and the illusion of peace that a kind offers

when they all bow down to that king

and they get the honor of the the pity of the rest of the world

that they are simple and counting their blessings

holy shit

you’re king

chin chin

boss

you better not be fucking with me

god I’d kill you

go take another beer

right over there

ascent

yes boss

you want one too

boss

you guy, yeah bring one for me as well

thanks

ascent

make a toast

your majesty

boss

to all the honest people

all who have to be beast

what we call justice

and either you are with us

or against us

never surrender

cheers

ascent

hear hear

may you live long now

and may you reign forever

They sit and enjoy the sunset in silence

A few minutes

Silence

They drink

Lights out

act 3

A woman sitting behind a desk

A client on the couch

The woman is writing some thing

Silence

all the way on the other side of the stage a king is sitting on his throne

It’s boss
And his advisor ascent

A moment

woman

so, let’s take it from the top

why are you here

client

well, it’s a bit complicated

the problem I mean

the solution is simple

woman

yes, I am listening

client

two or three things

the king

is not legitimate

I mean he is himself a subject

woman

what do you mean

client

I mean , he makes a stage

he doesn’t answer quickly when you talk to him

he pauses as if he had something to hide

it’s annoying

woman

Pauses

well

client

there, you do it too

why can’t people be more honest

just get it out already

are you a Christian

woman

well, I am baptised

so answer to your question

yes, I'm a Christian

client

oh Baptist

yeah that's great

you are a wonderful person

and I do appreciate your taking time with me

woman

so I have some questions

client

yes I'll do my best

woman

what is your complaint

client

it's the ruling class

they show intent

I can feel their intentions

like in my gut

they speak badly

and are really stupid

and don’t seem to understand

and they show no honor

woman

so, what do you think we can do about that

client

well, for first

we shouldn’t accept them as king

it is a sin to be living like that

I mean it’s this sharlatan

with 100 rooms and service

people should be living in One single room

I mean a room is holy

it’s your microcosm

an extra room

who’s in the other room

I’m not married and I’m not planning to either

on the other hand

it’s like when I’m in my room

I’m in the universe and free

and when I’m meditating

it’s like endless people in the imaginary world

they come and go

neighbours for a while

and you’re paying for the other room
it’s yours , right

I can Madeira te for days

I just love it so much

oh lady, you are doing this job

I mean you’re a woman

I’m such tempted by the good side

I mean I let Jesus guide me

I speak from him

I know he acknowledges every message that I bring

but of course I feel like I’m complete

there so much beauty in the world

but these people, they are damned

it’s like they make this storm

just to terrorise the people one by one
so they keep on being in higher position than the rest

woman

so your complaint is about the nobilities and the king

client

yes

I am an honest man

and I know to respect any man in his holy ness

like everyone is righteous

I mean it’s like everybody has god on their side

and giving the respect

I am great, I speak my mind

I give back and I am at the top of the world

and these people are the scum that don’t believe in the natural order of things

I don’t understand how people accept the as kings

woman

oh well, it’s just accepting the facts

party if you have to and count your blessings

client

but the did functionality of it all hurts me

I can’t accept

woman

well that fine

any solution

client

well, if I was king

I would be content with only one room

I would not marry

and I don’t need a woman for my credibility

or any father to give thing or hand over the power

or any children who would need me

I’d be an honest man without the service

I would arrange it a certain way

a new individual a commoner come is as the son

he will be in the media and backstage

he would serve or rather learn to serve

at the same time anothe person comes in

she would not be in the media as price but in secrecy

and she would be served by the prince

the one in the media

fifteen years each

and every seven years

someone new comes in

both sides

one is served back stage

and one is in the media

it’s perfect

rather serve in heaven
than rule in hell

and so shall the king

woman

this all seems pretty fantastic

but how do you think we can make it happen

client

well
I can myself go in as the king

somehow

woman

well, it’s heavily protected

guards everywhere
and wars might happen

client

oh, yes, I didn't think that one through then

ahh, I see

woman

let me consult with a colleague

one moment

client

by all means

As she leaves

He get up in respect

A while

The client starts whistling for himself

Enter woman with a colleague

colleague

hello

I am the colleague

how do you do

client

Gets up

oh, how do you do, sir

colleague

I’m fine, just fine

and you

client

just fine

thank you

colleague

I hear you have some ideas

we’ve had many complaint on this specific matter

and you might be just what we’re looking for

tell me, have you ever been in a palace

client

no, not that I can remember

colleague

visited

client

nope

colleague

worked there maybe

client

no, not really

I just have seen many a round

and believe that everybody should have no more than ONE single room

in a castle

that's humble

that's noble

colleague

yes, we see where you're going with this

what are your thoughts on eee…

..let say…. …ehh.

are you willing to begging from scratch

client

how do you mean

Colleague

would you want to begin at the bottom

client

ehh, sure, yeah, why not

woman

I think what my Colleague here is saying

is that you always can become a butler

and just work your way up

client

oh I see

yes

I guess

Colleague

good, that's good

Woman grabs a bunch of papers from the drawer

woman

here, sign these

here

and … there're

He takes the papers and reads a while

And signs

colleague

now we see clearly

you are the right man for this

and we know that you see clearly

we will need a full health evaluation

a full investigation of your past history in crime

the churches approval

and you'll be set

which one do you want to start with

the church

the police

or the doctors

client

I guess the doctors

colleague

follow me

There is another room similar on the other end of the stage

A doctor waiting to exam

doctor

hello, guten tag

wise gents me in Freud

please sit down

To the colleague and woman

you two may go, I take it from here

They leave

Woman back to her desk and colleague out

now how do you feel

client

well, excited

otherwise, just fine I suppose

doctor

tell me do you hear voices

client

well yes, in the spirit world

I call it the hidden heaven between us

doctor

do you move your lips when you think

client

well I mediate

and I see faces as if you would imagine and sometimes whisper

I went through Jesus and in the end I was risen

and a common man

because I realised One man doesn't make religion it's for all

and the deceit of the Jews is necessary for him to be king in the first place

that's the equation

doctor

Checks his ears

that all fine

tell me are you afraid

client

well before I was

all the time

but I discovered religion and in the end there was Adam's rip

and the apple

so I'm just a man with a bit of religion and dare to call my self a real Christian

of course I keep it to my self

it really is a private matter you see

doctor

Hammers his knees

do you get paranoid

client

well, not as such

I sort of had a quiet childhood

and really was a simple boy

and notice That people talked about me as if I wasn't there

so I understood it was about me

nothing bad or terrifying just about me

I don't thing that count as paranoid

bu I did become nervous and thought that's what doctors mean by paranoia

so short answer no

doctor

you are OK

you just need some alcohol sometimes

and this mediation

you are done ?

client

well, I do take it easier now a days

the storm has quieted down

and I'm more at peace

I mean

the father was from the mirror world

my sister from the shadows

ahh, I don't really want to talk about it

doctor

good good good

now, do you want any special medication

client

what do you mean

doctor

pills, drugs

ok

Writes

no medication

I'm done

I go bring the officer

good bye

Exit

client

yeah, bye

A while

Enter officer

officer

ok, let’s see

Looks through some papers

Murmurs

yes

so, first things first

are you an educated man

client

well I had some schooling but not higher education

no universities, if that’s what you mean

officer

hmm

what is you opinion on crime and punishment

well I believe to some degree a few years of prison if your a threat to some one

or attack someone

but I’m more of a liberal

but I really think police should wear no guns

you should train and be brave and interfere without weapons

I mean that criminal like having more rights that others

it’s sort of a sin

officer

yes, I happen to agree with you on that one

but there are no many brave men and women out there

now

do you have or have you ever had criminal friends

have you committed a crime

client

well, now that you mention it

I have done some thievery and robbing

well, a long time ago when I was younger

always follow a friend

I mean, not that I myself should get away with the crime

but from where I stand

if a friend is doing crime o go with him

and mostly they stop , they regret themselves

because I really am very afraid of crime and bad stuff

officer

ahh, an educated man

client

I mean

I’m not better

and everybody knows this about me

if you’re going down

brother, I’m going down with you

I believe

officer

a true believe

client

I guess you could say

a part of me is a criminal and a thief

but I also have Christ in me

and part doctor and police

I’m just open to everything

but not really any intention to hurt anyone

yes, I would say , yes

my only condition is that No one should get hurt

not really

officer

hah

indeed

a believer

so here’s some papers

all we need is all the crime you witnessed and everybody among you family and friends who are criminals

client

oh that’s no problem

Reads and signs

Exit officer

A while

In the centre back the extra curtain opens and the church is seen

With a minister waving incense

And praying in latin

priest

In nomine Patris, et Filii, et Spiritus Sancti. Amen

In nomine Patris, et Filii, et Spiritus Sancti. Amen

In nomine Patris, et Filii, et Spiritus Sancti. Amen

client

Is doe. Signing

Leaves the papers and leaves towards the church

The officer come and sits down and goes through the papers

To the priest

hello father

priest

hello my son

sit down

Client sits on.a chair

confess my son

client

well, I confess al the time at home

I even move my lips confessing

I go all the way

I confess what Everything is to me

and what it means to me

priest

are you a Christian

client

yes but I am not baptised

priest

oh yes you are

here holy water

Here pours invisible water over his head

In nomine Patris, et Filii, et Spiritus Sancti. Amen

so my son

what are your thoughts on these four religions

I hear you are educated

one, Buddhism

client

well, I believe there is Only One Religion and it is Christianity

and is lent from very other system

and is not original in any sence

all is lent

so Buddhism

hand and yin

absolution lends from that

there is a boy and sees a wild beast and get terrified

gets really afraid

and on the other side of the world some one gets a Yang

and bangs something

like a sort of a chain reaction but like a balance thing

some one goes up some one goes down

so it’s the answer to some one else’s terror

and the victim doesn’t deserve

hence the police should ale care of it

a matter of the law

so yin and yang

absolution

innocence in the end

a bacteria

or devil possession

and if it doesn’t accept

a programming or like a slave to a false philosophy

priest

good my son

In nomine Patris, et Filii, et Spiritus Sancti. Amen

so, Judaism

go on my son

client

well, it’s sort of the fight for religion

or the road and what was that led to Christianity and this

and more or less that in the end we all share the sin

and I believe if you are innocent

you’re bound to cast a stone

priest

good my son

In nomine Patris, et Filii, et Spiritus Sancti. Amen

so, Islam

go on my son

client

ahh, there are various Muslims

some need to make sure it pays off

and learn all about religion pre hand

and it is more or less proof of existence of Christianity and on heaven and hell

many of them get sick and can't really become Christian

or so they believed, they blame themselves for this

so it taks abou infidels and such

but there are those templars who also know of religion and Christianity
and believers

many with very strong faith become sufists like Muslim and such

but it's understood that the religion itself is only Christianity

what Mohammed says is warned about

speak honestly either you speak from Christ and get acknowledgment

or false and it's Mohammed

because Christ the image is someone you put before your family so

priest

good my son

In nomine Patris, et Filii, et Spiritus Sancti. Amen

and were you a Zarathustra believer
with good thought and good word and good deed
to help you interpret the bible son

were you free to interpret

client

Paus

yes

priest

good my son

In nomine Patris, et Filii, et Spiritus Sancti. Amen

now you will meet the teacher who will tutor you for your future engagement

fare well my son

Walks back towards the church

In nomine Patris, et Filii, et Spiritus Sancti. Amen

In nomine Patris, et Filii, et Spiritus Sancti. Amen

In nomine Patris, et Filii, et Spiritus Sancti. Amen

Enter teacher

Stands in from of the king who doesn’t notice him

teacher

To client

come forth

bring your chair and come forth

He hands over a booklet and pencil

now, I will give you some ground rules

take notes and take heed

first of all

Morality

is a principle

and such the only principle that stands on it’s own two feet

first principle

truthfulness

and your maker

second

equality

the one principle that touches all

equality is what every man can give to everyone else

third

Order

it’s personal and private

when you stand up for in justice

when you take a stand and yourself represent human right

and speak out

then you are holding on to order

four

human rights

every man’s right to express themselves as they wish

but when some one is hurt

five

justice

hence the police

the priest

the doctor and me

so king you say

we come to the world one way

what we call creation

what should be a celebration

so you and me a re tempted to wear a crown

the man in creation is not

you fall I love and see everyone differently

and all is divide

the man in creation sees all as same

no difference between me and you

so endlessly

and ancient people can put you

how ever old you are

the elders put you in the zer point zero one procent youth

no matter how far back you go

and it’s minority

and the man in creation

yes

a king is born

and if you swear allegiance with the king

you are a nobility and he will know if you are or not

and he shall be celebrated

don’t forget

the record of all things exist

a thousand crucifixions

the record

if not more

once it was two

once it was none

and once there was no death

was peace

and ease

and celebration when a man came to live from creation

the king

the only king

client

well

I sort of know all of this

and I’ve meditated on it

so thanks anyway

teacher

let’s see

Takes his papers

And checks

Writes

yes indeed you do

consider your self graduated

Gives him a diploma

So the all empty the stage

No chairs or tables

Just the officer, he woman, the doctor , the priest and the teacher and client

And the king on his throne

And they all go to serve the king

Some service

And the woman is his queen

And they sit by their throne

Curtain
